Our broker-dealer clears its brokerage business through a third-party custodian, National Financial Services, LLC (NFS). Our investment advisers conduct investment advisory business through third-party custodians, such as NFS and Charles Schwab & Company. Our financial advisors may provide you a consolidated financial account report or other summary of your accounts as a courtesy and for informational purposes. These reports could include assets that are not held by or through our firm and are not covered by the Securities Investor Protection Corporation (SIPC). You should always refer to your original statements from companies that maintain custody of your assets to confirm the amount and value of investments held by these companies. From time to time we or a third party auditor that we hired to meet our regulatory requirements, may contact you to verify assets held in custody by third-party custodians and sponsors of investment and insurance products. ## **Select Provider Relationships**

We make available hundreds of different mutual fund and variable insurance products to our financial advisors and customers. We also make available many retirement vehicles such as 401(k) and group variable annuity products, as well as alternative investment products such as limited partnerships, real estate investment trusts, and hedge fund products. Our financial advisors are free to choose what investment products they sell to customers from the many product offerings we approve. Because of the numerous investment and insurance alternatives available, our firm focuses on the sale of investment products of a select number of providers (Select Providers). Select Providers are given increased access to our financial advisors for the purpose of providing marketing, sales, education and product support.

Kestra Investment Services, LLC receives both financial and non-financial support from Select Providers. We receive more compensation for the sale of products of Select Providers than for the products of other providers we sell and thus have a financial incentive to sell the products of Select Providers. The amounts and forms of compensation we receive from Select Providers vary based on a number of factors including level of past sales, prospective future sales and the types of service, education, support and access to distribution we provide. We receive one or more of the forms of compensation described below in connection with our arrangements with each Select Provider.

These payments are typically made from the resources of the investment adviser or distributor (or one of their affiliates) in the case of mutual fund Select Providers and from the resources of the insurance company (or its affiliate) in the case of variable annuities, group annuities, and variable life products. The payments typically are in addition to the sales charges, rule 12b-1 fees, redemption fees, deferred sales charges and other fees and charges you will find described in the prospectus fee tables or offering documents of the various investment products.

### **Mutual Funds and ETF's**

Select Providers of mutual funds and ETFs pay us or our affiliates either an amount of up to 0.065% on Assets Under Management (NQ) or fixed fees of up to \$350,000 annually to support and participate in various conferences and seminars conducted by us and our affiliate.

### **Variable Annuities**
